COMPANY OVERVIEW

About Us

At Princestar Imperial Nigeria Limited, we are a dynamic and forward-thinking company committed to delivering excellence in the oil and gas, construction, and energy industries. Founded with a vision to provide innovative, reliable, and sustainable solutions, we pride ourselves on being a trusted partner to clients across Nigeria and beyond.

OUR PROCESS

Mission

To deliver high-quality, cost-effective, and sustainable solutions tailored to meet the unique needs of our clients, while fostering a culture of safety, professionalism, and environmental responsibility.

Vision

To be the foremost provider of engineering and project management solutions, recognized for excellence, innovation, and sustainability.

With a team of seasoned professionals, cutting-edge technology, and an unwavering dedication to quality, we specialize in delivering end-to-end services in Engineering, Procurement, Construction, Inspection, Quality Assurance & Control, Corrosion Monitoring, and Project Management & Consultancy.

COMPANY VALUES

- **Integrity:** Upholding the highest standards of honesty and ethical conduct.
- **Excellence:** Delivering superior results through professionalism and dedication.
- **Innovation:** Leveraging technology and creativity to solve complex challenges.
- **Sustainability:** Ensuring that our projects positively impact the environment and future generations.
- **Collaboration:** Building strong, long-term partnerships with clients, stakeholders, and communities.

*At **Princestar Imperial Nigeria Limited**, we don't just deliver services; we build trust, create value, and shape the future.*

WHAT WE DO

- Engineering Services:** We provide cutting-edge engineering solutions, ensuring that every project is executed with precision and efficiency.
- Design and Analysis:** Conceptual, detailed, and process design for industrial projects.
- Engineering Studies and Feasibility Assessments:** Assessing the viability and requirements of projects to ensure smooth execution.
- Mechanical, Civil, and Structural Engineering:** Tailored solutions for the oil & gas, construction, and energy industries.

WHAT WE DO

- Procurement Services:** Our procurement services ensure that projects are equipped with high-quality materials and equipment sourced from reputable suppliers globally.
- Vendor Selection and Management:** Identifying and collaborating with trusted suppliers for timely delivery.
- Logistics and Supply Chain Management:** Efficient management of material movement to and from project sites.
- Sourcing and Delivery of Critical Equipment:** Specializing in sourcing complex and critical equipment for energy and oil & gas projects.

WHAT WE DO

- Construction Services:** We handle both large and small-scale construction projects.
- Site Preparation and Earthworks:** Preparing construction sites with detailed excavation and grading.
- Structural and Civil Construction:** Delivering durable and functional buildings, pipelines, and other critical infrastructure.
- Mechanical and Electrical Systems Installation:** Ensuring seamless integration of mechanical and electrical systems into the built environment.

WHAT WE DO

- Inspection Services:** We offer comprehensive inspection services to ensure that projects meet all relevant standards and regulations.
- Quality Inspections:** Verifying that materials and work adhere to design specifications and quality standards.
- Pre-Commissioning Inspections:** Assessing system and equipment readiness before operations.
- Third-Party Inspections:** Independent verification and certification of work performed.

WHAT WE DO

- Quality Assurance & Quality Control (QA/QC):** Our QA/QC services guarantee that every project meets the highest standards.
- Development and Implementation of Quality Plans:** Tailored plans to monitor and control quality throughout the project lifecycle.
- Inspections, Testing, and Audits:** Rigorous processes to ensure all materials, equipment, and work meet agreed-upon specifications.
- Non-Destructive Testing (NDT):** Advanced techniques to ensure the integrity of critical materials and systems without damaging them.

WHAT WE DO

- ☑ **Corrosion Monitoring:** We provide corrosion monitoring solutions to prolong the life and integrity of assets. This includes:
- ☑ **Corrosion Risk Assessment:** Identifying and assessing corrosion risks in assets and pipelines.
- ☑ **Cathodic Protection Systems:** Installation and maintenance of systems to prevent corrosion in pipelines and other critical infrastructure.
- ☑ **Corrosion Inspection and Testing:** Regular inspections to detect and mitigate corrosion risks.

WHAT WE DO

- Project Planning and Scheduling:** Developing realistic timelines and strategies for on-time project delivery.
- Cost Estimation and Control:** Providing accurate cost assessments and ensuring projects remain within budget.
- Risk Management:** Identifying potential risks and developing strategies to mitigate them.
- Contract Management:** Overseeing contractual obligations to ensure compliance and protect client interests.

*At **Princestar Imperial Nigeria Limited**, we are committed to delivering excellence across all of our services.*

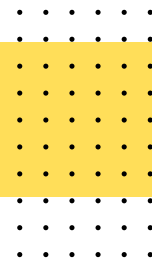

OUR EXPERTISE

At **Princestar Imperial Nigeria Limited**, we pride ourselves on our deep industry expertise and technical proficiency. Our team consists of highly skilled professionals with extensive experience across various sectors, including oil and gas, construction, energy, and infrastructure. This wealth of knowledge and hands-on experience allows us to offer tailored, effective solutions that meet the unique challenges of each project.

We stand out as a trusted partner for delivering successful, innovative, and sustainable projects across all sectors we serve.

OIL & GAS EXPERTISE

Pipeline Engineering & Construction

With years of experience in the oil and gas industry, we offer a comprehensive range of services to meet the complex needs of this sector.

Corrosion Monitoring & Control

Expertise in corrosion prevention techniques, including the installation and maintenance of cathodic protection systems to safeguard infrastructure.

Offshore & Onshore Infrastructure:

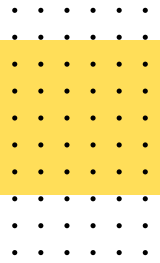

Delivering reliable infrastructure for both offshore and onshore oil and gas facilities.

Engineering, Procurement, Construction Projects

Successfully managing large-scale EPC projects from concept to completion, ensuring that they meet regulatory and safety standards.

PROJECT MANAGEMENT EXPERTISE

End-to-End Project Delivery

Managing projects from inception through to handover, ensuring that timelines, budgets, and quality standards are met.

Risk Management

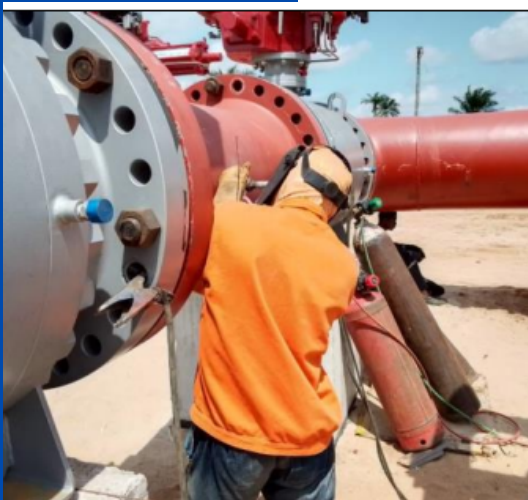

Proactively identifying, assessing, and mitigating potential risks to minimize delays and cost overruns.

Client Liaison and Reporting

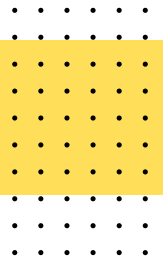

Ensuring transparent communication between stakeholders and providing regular project status updates to keep clients fully informed.

Contract Negotiation and Management

Handling all aspects of contract management, ensuring that all contractual obligations are met and protecting client interests.

ENGINEERING EXPERTISE

Mechanical, Electrical, and Civil Engineering

A multidisciplinary approach to delivering integrated solutions for both construction and energy-related projects.

Design and Development

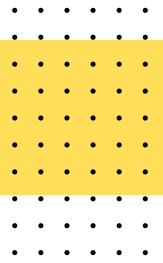

Using state-of-the-art tools and methodologies to design efficient, cost-effective systems and infrastructure.

Advanced Technical Solutions

Implementing innovative and cutting-edge technology to optimize systems and deliver superior results.

CONSTRUCTION AND INFRASTRUCTURE EXPERTISE

Structural and Civil Works

Building safe, high-performance infrastructure for industrial, residential, and commercial use.

Building and Facility Construction

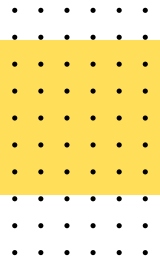

Constructing and upgrading facilities to meet industry standards, focusing on sustainability and efficiency.

Site Development & Earthworks

Providing full construction services, including grading, excavation, and site preparation.

INSPECTION AND QUALITY ASSURANCE EXPERTISE

Non-Destructive Testing (NDT)

Employing advanced NDT methods to assess the structural integrity of materials without damaging them.

QA/QC Program Development

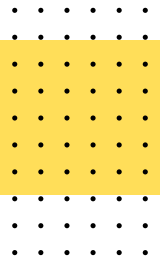

Developing tailored quality assurance and control plans to meet the specific requirements of each project.

Certification and Compliance

Ensuring all materials, designs, and work meet industry regulations and international quality standards.

CONSULTANCY AND ADVISORY EXPERTISE

Feasibility Studies and Risk Assessments

Conducting in-depth analyses to assess the feasibility of projects and identify any risks before they arise.

Strategic Planning and Development

Offering strategic insights to help clients plan, develop, and execute large-scale infrastructure and energy projects.

Regulatory Compliance Guidance

Providing expert advice to ensure all projects comply with relevant regulations and industry standards.

SUSTAINABILITY AND ENVIRONMENTAL EXPERTISE

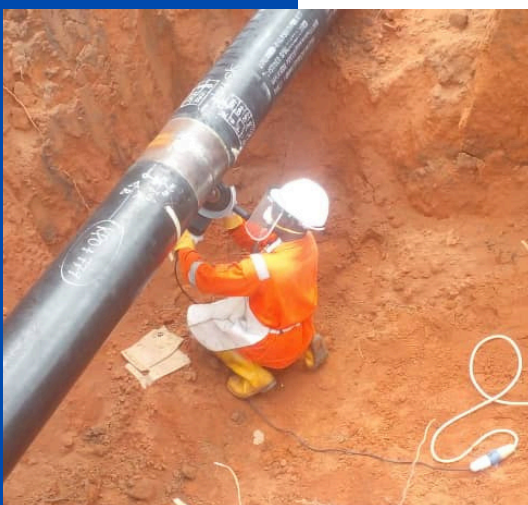

Environmental Impact Assessments (EIA)

Conducting thorough EIAs to ensure that projects minimize their environmental footprint.

Sustainable Building Practices

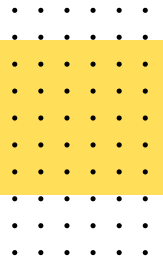

Incorporating green building practices into our construction and engineering services to reduce energy consumption and environmental impact.

Energy Efficiency Solutions

Providing energy-efficient solutions that reduce costs while promoting sustainability.

SUSTAINABILITY AND ENVIRONMENTAL EXPERTISE

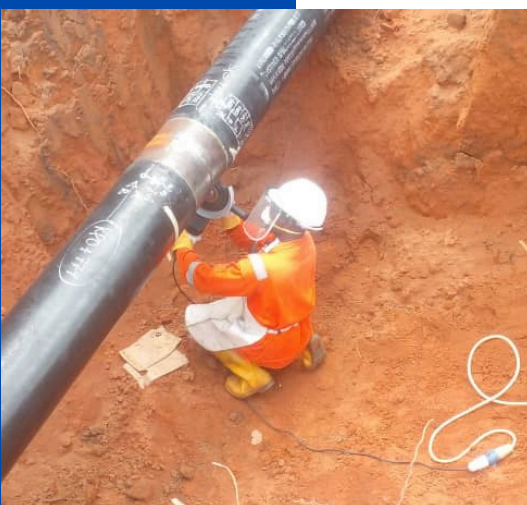

Environmental Impact Assessments (EIA)

Conducting thorough EIAs to ensure that projects minimize their environmental footprint.

Sustainable Building Practices

Incorporating green building practices into our construction and engineering services to reduce energy consumption and environmental impact.

Energy Efficiency Solutions

OUR APPROACH

At Princestar Imperial Nigeria Limited, our approach is centered around delivering high-quality, efficient, and sustainable solutions that exceed client expectations. We adopt a client-focused methodology that prioritizes transparency, collaboration, and a commitment to excellence throughout the project lifecycle. Our approach combines industry best practices, innovative technologies, and a highly skilled workforce to ensure successful outcomes for every project, regardless of size or complexity.

We ensure that every project is executed with excellence, safety, sustainability, and client satisfaction at its core.

CLIENT-CENTRIC FOCUS

Understanding Client Needs

Engaging with stakeholders to fully understand the specific requirements and constraints of each project.

Tailored Solutions

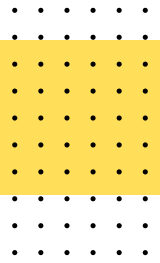

Developing customized solutions that meet the unique needs of each client while adhering to budget, schedule, and safety considerations.

Continuous Client Feedback

Regularly engaging with clients to gather feedback and make adjustments as necessary to ensure satisfaction.

INTEGRATED PROJECT DELIVERY

Collaborative Teamwork

Our multidisciplinary team works together seamlessly to provide integrated solutions across all aspects of the project.

Streamlined Processes

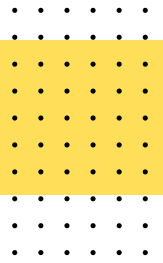

We leverage advanced project management systems and processes to streamline the project lifecycle, ensuring the timely and cost-effective delivery of projects.

Cross-Functional Expertise

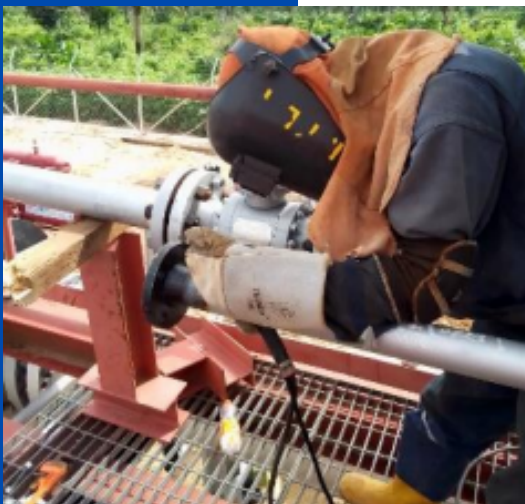

We bring together experts from various disciplines, including engineering, procurement, and construction, to ensure that all facets of the project are handled efficiently and effectively.

INNOVATION AND TECHNOLOGY

Cutting-Edge Tools and Equipment

Utilizing the latest technologies in design, construction, and inspection to ensure precision and quality in every project.

Digitalization

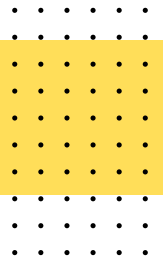

Adopting digital tools for project tracking, monitoring, and reporting, which allows us to provide real-time updates to clients and stakeholders.

Research and Development

Continuously exploring new technologies, methodologies, and industry trends to remain at the forefront of the industry and deliver innovative solutions.

SAFETY AND QUALITY ASSURANCE

Safety Culture

Our safety culture is embedded into every phase of our projects, from planning to execution. We ensure that all workers are trained, equipped, and empowered to work safely.

Quality Control Systems

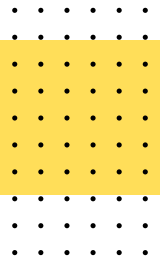

We implement robust quality management systems that adhere to international standards, ensuring that each project is delivered to the highest quality.

Compliance and Certifications

Ensuring that all our projects comply with local and international regulations, standards, and certifications, guaranteeing safety and operational excellence.

SUSTAINABILITY AND ENVIRONMENTAL RESPONSIBILITY

Green Solutions

Prioritizing environmentally friendly materials, energy-efficient designs, and sustainable construction methods to minimize environmental impact.

Environmental Impact Assessments

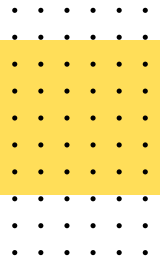

Conducting thorough EIAs to evaluate and mitigate any negative environmental effects from our projects.

Sustainable Project Execution

Ensuring that sustainability is embedded in every phase of the project, from design to delivery.

RISK MANAGEMENT AND PROBLEM SOLVING

Risk Identification and Mitigation

Systematically identifying potential risks and implementing strategies to mitigate them, ensuring smooth project execution.

Problem-Solving Capabilities

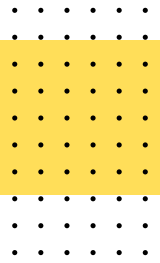

Our experienced project managers and engineers are adept at quickly identifying problems and providing effective solutions to keep projects on track.

Contingency Planning

Developing contingency plans to address any unforeseen challenges, ensuring minimal disruption to project timelines.

TIMELY DELIVERY AND COST EFFICIENCY

Project Scheduling and Monitoring

Developing detailed project schedules and using project management tools to track progress and adjust as needed to maintain timelines.

Cost Management

Employing effective cost-control strategies to ensure that projects are delivered within budget without compromising on quality.

Efficient Resource Allocation

Ensuring that resources (manpower, materials, equipment) are efficiently allocated and used throughout the project lifecycle.

PROJECTS & PORTFOLIO

At Princestar Imperial Nigeria Limited, we take great pride in our diverse portfolio of successfully completed projects across a wide range of sectors, including oil and gas, construction, and industrial services. Our commitment to excellence, safety, and sustainability has earned us the trust of our clients and made us a preferred partner for many major companies in Nigeria and beyond. Below is a selection of some of our key projects.

■ 1. SPDC ANOH PROJECT 2024

Client: Shell Petroleum Development Company (SPDC)

Scope: Engineering, Procurement, and Construction (EPC) for the multiphase pipeline from Assa North to Obite (12" x 13km)

Description:

This project involved the construction of a 12-inch, 13-kilometer multiphase pipeline as part of the development of the ANOH gas project. We provided end-to-end services, including the design, procurement, construction, and commissioning of the pipeline system.

■ 1. SPDC ANOH PROJECT 2024

Client: Shell Petroleum Development Company (SPDC)

Scope: Engineering, Procurement, and Construction (EPC) for the multiphase pipeline from Assa North to Obite (12" x 13km)

Description:

This project involved the construction of a 12-inch, 13-kilometer multiphase pipeline as part of the development of the ANOH gas project. We provided end-to-end services, including the design, procurement, construction, and commissioning of the pipeline system.

CATHODIC PROTECTION JOB EXPERIENCE AND LIST OF PROJECTS CARRIED OUT BY PRINCESTAR IMPERIAL NIGERIA LIMITED						
	PROJECT DESCRIPTION	CLIENT	CONTRACT VALUE (N)	YEAR AWARDED	COMPLETION STATUS: YEAR	CONTACT PERSON
1	Design, procurement and installation of Temporary and Permanent Cathodic protection System installation for ANOH 36" x 23km pipeline project	NNPC / Spectrum	35million	2023	Ongoing	Victor Ahukanna
2	Design, procurement and installation of Temporary and Permanent Cathodic protection System installation for ANOH SPDC 12" x 28km pipeline project	SPDC / Spectrum	42million	2023	Ongoing	Victor Ahukanna
3	Design and procurement, installation and commissioning of temporary cathodic protection system on 2nos of 4" lines and 1 nos of 2" x 9km Network Oil and Gas Pipeline	Network Oil & Gas/NPDC	10 million	2018	Completed: 2018	Gilbert Osa-Gilbert
4	Cathodic protection system design and revamp of 3nos of OML 30 Flow stations comprising Ewreni, Kokori and Oroni	Heritage Oil Limited/NPDC	23.5 million	2017	Completed: 2018	Engr Emeka C
5	Drilling of 55meters deep well groundbed and installation of casings and Lida Anodes for permanent cathodic protection on the 24" X 3.5Km gas pipeline project at Escravos.	Chevron	20.7 million	2016	Completed: 2017	Dr. Okon Akpan
6	Engineering, Procurement, Construction and Installation (EPCI) of Temporary and Permanent Cathodic Protection System on 16" X 22km BUA/NGC Edo Cement Gas Pipeline project from Okpella to Ebelle Okpekpe	Arthur Ferdinand Limited/BUA Cement/SATCO	35.2 million	2014	Completed 2015	Engr Tope Omole
7	Design, Procurement and Installation of Permanent CP System including groundbed drillings, installation of transformer rectifiers, etc for Akiama and Finima By-Pass water borehole project	Bistar Limited/NLNG	20.7 million	2013	Completed: 2014	Engr. Dr Max Ugwu
8	Engineering, Procurement, Construction and Installation (EPCI) of Temporary and Permanent Cathodic Protection System on 4" X 4km 3Nos of flowlines for Nigerian Petroleum Development Company (NPDC) at Ologbo, Edo State.	NPDC	15.4 million	2012	Completed: 2013	Engr David Onuoha
9	Consultancy Services on cathodic protection system installation services for NIPCO CNG Compressed gas pilot project at Benin	Cathodic Corrosion Limited/Nipco Nig Limited	5.1 million	2012	Completed : 2013	Engr Emeka C

MANAGEMENT TEAM

At **Princestar Imperial Nigeria Limited**, we believe that our strength lies in the expertise and dedication of our team. Our team is composed of professionals with extensive experience and a deep understanding of the sectors we serve, including engineering, procurement, construction, project management, and consultancy.

Leadership Team

- Chief Executive Officer /Managing Director
- Chief Operating Officer
- Chief Financial Officer

Project Managers

- Senior Project Manager
- Project Manager, Oil & Gas

HEALTH, SAFETY, AND ENVIRONMENT

At **Princestar Imperial Nigeria Limited**, we prioritize the health, safety, and well-being of our employees, contractors, clients, and the environment. We are committed to ensuring that all our operations are carried out in a safe, sustainable, and environmentally responsible manner. Our comprehensive Health, Safety, and Environment (HSE) policy underpins everything we do, and we take great pride in our track record of minimizing risks and maintaining a healthy work environment.

Our HSE Philosophy

Our philosophy is simple: **safety is our first priority**. We believe that every injury is preventable and every incident can be avoided. With this mindset, we foster a culture of safety across all levels of the organization, where safety is not just the responsibility of the HSE department but the responsibility of every employee and contractor.

Our HSE policy encompasses the following core principles:

- **Safety First:** We place safety at the heart of all our operations. It is the responsibility of each team member to ensure the safety of themselves, their colleagues, and the community.
- **Zero Tolerance for Unsafe Practices:** We have zero tolerance for unsafe practices and behaviors. Our team is trained to adhere to the highest standards of safety, and we continuously monitor and assess our work environment.
- **Continuous Improvement:** We strive for continuous improvement in our HSE practices through regular audits, training, and a commitment to learning from every project and incident.
- **Compliance with Local and International Standards:** We comply with all local and international safety regulations, ensuring that our practices are in line with industry best practices and global standards.

HEALTH AND SAFETY MANAGEMENT SYSTEM

We have implemented a robust **Health and Safety Management System (HSMS)**, designed to identify, assess, and control risks across all operations. This system is an integral part of our project execution strategy, ensuring that every project meets or exceeds safety requirements and operates under strict safety guidelines.

Key elements of our HSMS include:

- **Risk Assessment and Management:** We conduct thorough risk assessments for every project, identifying potential hazards and implementing measures to mitigate them. Risk management plans are developed and regularly reviewed to ensure they remain effective.
- **Training and Awareness:** We provide continuous safety training to all employees and contractors, ensuring that everyone is well-equipped to identify hazards and respond appropriately in emergencies. We also conduct safety drills and refreshers to keep safety at the forefront of everyone's mind.
- **Safety Culture:** We foster a culture where safety is integrated into all aspects of our work. This involves engaging employees at all levels in safety discussions and ensuring that safety practices are part of the day-to-day operations.
- **Incident Reporting and Investigation:** We encourage open reporting of all incidents, near misses, and safety concerns. Each report is investigated, and corrective actions are taken to prevent recurrence.

WHY CHOOSE US

At **Princestar Imperial Nigeria Limited**, we are committed to delivering exceptional results through quality, reliability, and innovation. Here's why you should partner with us for your next project:

1. Industry Expertise

With extensive experience in the oil and gas, construction, and engineering sectors, we bring a wealth of knowledge and technical expertise to every project. Our team of seasoned professionals ensures that we can handle complex challenges and deliver outstanding solutions tailored to your needs.

2. Comprehensive Service Offering

We offer a full spectrum of services, from engineering, procurement, and construction to project management, corrosion monitoring, and inspection. This approach enables us to manage all aspects of your project efficiently, ensuring seamless execution from start to finish.

3. Quality and Excellence

We are dedicated to upholding the highest standards of quality, safety, and operational efficiency in every project. Our rigorous **Quality Assurance and Quality Control (QA/QC)** processes ensure that every task is completed to perfection, meeting or exceeding industry standards and client expectations.

4. Innovative Solutions

We stay ahead of the curve by embracing cutting-edge technologies and industry best practices. Our commitment to **innovation** allows us to offer optimized, cost-effective, and sustainable solutions that deliver long-term value to our clients.

5. Timely and Cost-Effective Delivery

We understand the importance of delivering projects on time and within budget. We leverage our robust project management systems and experienced team to ensure projects are completed efficiently without compromising quality, helping clients achieve their objectives with minimized risk.

WHY CHOOSE US

6. Safety and Environmental Responsibility

We prioritize **Health, Safety, and Environment (HSE)** in every aspect of our operations. Our commitment to safety is reinforced by rigorous protocols that protect our employees, stakeholders, and the environment. We strive to deliver safe and environmentally responsible solutions that align with our clients' sustainability goals.

7. Strong Client Relationships

We value building long-term partnerships with our clients. Our **customer-centric approach** ensures that we understand your unique needs, allowing us to deliver solutions that exceed your expectations. We believe in open communication, transparency, and collaboration throughout every phase of the project.

8. Proven Track Record

We have quickly established a strong portfolio of successful projects, demonstrating our ability to manage complex challenges and deliver high-quality results. Our team's experience with large-scale projects has earned us a reputation as a trusted partner in the industry.

9. Tailored Services for Diverse Industries

We serve a wide range of industries, including **oil and gas, power generation, construction, and more**. Whether you're in need of specialized pipeline construction, corrosion monitoring, or EPC services, we have the flexibility and capability to meet your specific requirements.

10. Commitment to Sustainability

We are dedicated to making a positive impact on the environment. Our sustainable practices and innovative solutions help clients reduce their environmental footprint while achieving operational excellence. By choosing us, you are partnering with a company that is committed to both economic and environmental sustainability.
